Networking Benefits of Supplier Membership with SPN

Steel Plus Network has traditionally organized meetings for members to provide opportunities for improvement to each of their operations through educational presentations, motivational messages and industry expert reports. These meetings also fulfill our mission to coordinate our purchasing programs and networking opportunities. The regional meetings conducted by SPN along with the Annual General Meeting are deemed vital to the health and welfare of SPN's members and are considered an integral part of our operation.

The networking component of SPN includes the sharing of best practices and the opportunity for suppliers to engage with members to discuss solutions to meet their business needs.
